SUMMARY

Python Full-Stack Developer with experience in building web applications using Python, Django, REST APIs, JavaScript, and MySQL. Knowledgeable in HTML, CSS, Bootstrap, Tailwind CSS, Sass, Docker, and Git. Quick learner, adaptable to new technologies, and eager to improve coding skills.

Experience

Software Developer: July 17, 2024 - Aug 17, 2024

ExtraMindTech

- APIs section for a trading application: Developed and implemented APIs for a trading application, which helped to handle data efficiently and make secure transactions.
- Demonstrated technical knowledge and professionalism: Sincere, hardworking, and enthusiasm contribute to positive contribution in the team environment.
- Maintained professional behavior, showing a positive attitude and strong work ethic

Internship

Synnefo Solutions : Nov 07, 2023 - Dec 07, 2023

Full-Stack Python Web Development Course and Internship

- Gained experience working with front-end languages such as HTML, CSS, and Bootstrap
- Worked with backend technologies including Python and Django

PROJECT

The GMRL laboratory - is a web application with an interactive and user-friendly interface built with HTML, CSS, Bootstrap and JavaScript on the front end. On the back end, the project manages the application's logic, database with Python and the Django framework. The GMRL laboratory project provides a seamless and responsive experience for users to access and interact with laboratory data and functions by combining these technologies.

Asset-Sync — Asset Management System Software

Developed a comprehensive asset management system designed to streamline IT teams' processes for tracking and managing company assets. The system provides a centralized platform where IT professionals can efficiently organize, monitor, and audit hardware and software assets.

https://github.com/Amaljithkaliyodath/Assest_sync

Blog Application

Built a blog platform with user authentication, profile management, and blog post CRUD operations (create, view, edit, delete). Utilized JavaScript, Tailwind CSS, Docker, MySQL, and Django Rest API for functionality and styling.

TECHNICAL SKILLS

- HTML
- Cascading Style Sheets (CSS)
- Bootstrap
- JavaScript
- SQLite
- Django
- Git & GitHub
- Mysql
- RestAPI
- Python
- Docker
- Tailwind
- Zapier
- sass

EDUCATION

Bachelor of Computer science

Kannur University - P.K Kalan Memorial college of Applied science **2020- 2023**

Higher Secondary

GVHSS Thalapuzha - Computer science **2018- 2020**
